

Lake Committee—This Committee is responsible for the recommendation to the Board of a qualified lake management company as well as oversight of the lake management company. The lake is a focal point for the community and this committee will also recommend and implement sound practices to insure a balanced aquatic and wildlife environment, silt control and removal practices. This Committee will work closely with the Architectural Control Committee and the Common Grounds Committee to maintain Owner occupied shore quality standards as well as a natural environment for Common Ground property shoreline.
